Dr. Xia had issues so a pediatric dentist was hired to assist with a remedial program which was approved by the Board. The three components consisted of going back to dental school for 52 hours of continuing education, taking a multiday course (both completed in three months), and hiring a practice management consultant who would perform audits. In February 2012, the parent company of Small Smiles closed the practice. Dr. Xia has moved to California and does not have a job. She is not sure if she'll get one in pediatrics or in Arizona. Mr. Tonner suggested the Board drop the audit requirement.

Dr. Cullinan has never had this issue before but he has learned that he needs to diagnose and document why the wisdom teeth needed to be extracted. He is now taking post operative x-rays and is also giving his patients the option of going to an oral surgeon. B. Anesthesia Committee – Gary Gradke, DDS

Review, discussion and possible action regarding recommendations of the Anesthesia Committee for revisions to Arizona Administrative Code Title 4, Chapter 11, Articles 1 and 13; Review discussion and possible action regarding opening a docket and forwarding proposed rules to the Governor's Regulatory Review Council.

Jose Ortiz represents the Arizona Association of Nursing Anesthetist. He stated the proposed rules impose more hiring restrictions on CRNA's than the current state laws. There is no need for two-tiered permits for different types of anesthesia providers. These proposed rules will restrict their practice. According to the rules they cannot do anesthesia without a dental anesthesiologist or physician anesthesiologist present. Currently, they can practice under the supervision of the dentist. Dr. Gradke responded that the dentists who have had very little anesthesia training are not capable of supervising CRNA's. Mr. Ortiz stated they practice in many facilities without direct supervision of an anesthesiologist which state law allows. There are no studies that state they are less safe than anesthesiologists. They collaborate with the surgeon who is providing the care in hospitals and offices. Ms. Buckles stated this is more to protect the public and not to curtail the CRNA's.

Rodney Moffett of the Arizona Association of Nursing Anesthetist stated that there is nothing in statute that says CRNA's have to be supervised. When different levels of permits are proposed, it sets precedence for dental anesthesiologists. The dentist needs no anesthesia for credentials. However, that dentist is then restricted. It's not a safety issue, it is a practice issue.

Upon MOTION by Dr. Waite, second by Dr. Hauer, the Board voted to ACCEPT the recommendation, OPEN a docket and FORWARD the proposed rules to the Governor's Regulatory Review Council. MOTION PASSED UNANIMOUSLY.

C. Dental Hygiene Committee – Laurie Buckles, RDH

- ii.
