### **CALL TO THE PUBLIC**

Dr. Gary A. Schoenrock was present to request that the Board consider the direction of the dental profession, especially as it relates to OnabotulinumtoxinA ("Botox") and fillers. The Board directed staff to conduct research on which states allow the dental profession to administer Botox and/or other fillers and place on a future agenda.

### **PUBLIC COMMENT ON CASES**

Heather N. Hardy swore in the public who were present to comment on cases.

The complainant for case no. 201800182; Hoaglin, Donald R. was present and stated his frustration with the way his case was handled by board staff, the lack of care he received from the dentist he filed his complaint against and why the Board terminated his case without discipline based on the executive director's recommendation. The complainant requested that the Board reopen his case and requested that they award him restitution.

The complainant for case no. 201800214; Young, Ian D. was present and stated his frustration with the way his case was handled by board staff, the lack of care towards him by Dr. Young, Dr. Young's bullying tactics and the fact that his dentures melted during the delivery to Dr. Young's

office, which did not fit his mouth and Dr. Young refused to replace or refund for the work performed.

The complainant for case no. 201800101; Dhillon, Inderraj S., along with her attorney, Louis Camp, were present and Mr. Camp stated that his client's experience with Dr. Dhillon was both painful and lead to a hospital visit, which lead to a cyst being removed from her throat that was possibly caused by one of Dr. Dhillon's tooth extractions.

The complainant for case no. 201700260; Spring, David E. was present and stated that the Dr. Spring used improper tools for denture placement, caused her pain and used outdated equipment.

The complainant for case no. 201800210; Bailey, Lance Don was present and discussed his experience with Dr. Bailey and the placement of crowns, which lead to other teeth being broken and all crowns placed eventually broke or cracked. He had trouble eating and drinking and incurred lots of debt and requested that the Board order restitution to pay him back what he spent on bad dental work. He also stated that the successor dentist fixed the issues and he is now happy with his teeth. He did not like that Dr. Bailey also attacked his character.

The complainant for case no. 201800085; Stoor, Michael James was present, along with her mother. The mother stated her frustration with Dr. Stoor and the pain her daughter went through with nine root canals, which all failed and lead to abscesses. Her daughter was never referred to an endodontist or oral surgeon by Dr. Stoor. Eventually her daughter went to an endodontist and oral surgeon who corrected the nine failed root canals and drained the abscesses. The complainant stated that she was traumatized as a 14-year old going through four hours of treatment at a time, her grades suffered and she missed a lot of normal social activity due to her procedures and pain. They requested that the Board grant them restitution for what they spent.

###### Cassell, Elizabeth Suzanne

Andy Fegley, a family friend, was present to speak on behalf of Elizabeth Suzanne Cassell and her credentials as a hygienist. Mary DeLaat Williams clarified that the Board was not reviewing Ms.

Cassell's credentials to be licensed as a hygienist because staff already issued Ms. Cassell her license as a hygienist and certificate to administer nitrous oxide analgesia. The only matter before the Board was whether or not the Board should grant Ms. Cassell a local anesthesia certificate pursuant to A.R.S. § 32-1281(E). The Board discussed their options since Ms. Cassell submitted an application and the need to grant or deny. The Board was concerned about denying Ms. Cassell's application for a local anesthesia certificate because a denial is reportable to the National Practitioner Databank and prevents her from reapplying for five years. The Board discussed that since Ms. Cassell does not meet the requirements of A.R.S. § 32-1281(E) that they would like for her to withdraw her application versus voting to deny her the certificate.

After discussion, a motion was made by Dr. Robert B. Taylor, seconded by Nick Goodman and passed unanimously to table any action, direct staff to contact Ms. Cassell and provide her the option to withdraw her application for a local anesthesia certificate and place the matter on a future agenda if the application is not withdrawn.

Ms. Hardy also stated that WREB has made the periodontal and prosthodontic portion of the exam optional. The Board discussed that they may need to change their statutes and be specific with exactly what the applicants should be testing on rather than a blanket statement of passing a “board exam” regardless of who the administering body is/was.
